

To Whom It May Concern:

I am writing to ask that you not allow LPFM service to overtake my current FM translator service that provides me with the radio station K-LOVE. This station provides me and my family with uplifting songs and messages that make our lives more positive. If K-LOVE were not broadcast locally, we would not have a radio station that plays modern Christian music and provides uplifting, positive messages. I encourage you to allow K-LOVE to continue to broadcast via FM translator service as it provides some light in an otherwise dark world; it gives hope to the hopeless and strength to the weary. This radio station allows people to know that there is someone out there always watching over them—it is always there, just like God is always there.

Thank you,

Phil Young
